SUMMARY

Computer Science undergraduate (CGPA: 9.46) with experience in full-stack development, AI-powered applications, and scalable web platforms. Proficient in C++, Python, SQL, React, and Next.js with a strong foundation in Data Structures and Algorithms. Passionate about building impactful products and solving complex engineering problems.

EDUCATION

SRM University, Chennai, Tamil Nadu — June 2023 – May 2027
B.Tech. Computer Science and Engineering — CGPA: 9.46
(Specialization: Big Data Analytics)

SKILLS

Languages Technologies: C, C++, Python, Java, JavaScript, TypeScript, SQL, React.js, Next.js, Node.js, Express.js, Tailwind CSS, PostgreSQL, MySQL, MongoDB, Supabase, Prisma, Git, GitHub
Core Concepts: Data Structures Algorithms, Object-Oriented Programming, DBMS, Operating Systems

EXPERIENCE

Software Development Intern — IFIA Bharat (Remote) Dec 2024 – Feb 2025 Architected and launched a responsive website under tight deadlines. Led frontend development efforts, ensuring consistent UI/UX and cross-device compatibility. Collaborated with technical teams to improve functionality, usability, and performance.

PROJECTS

ARIA — AI-Native Mini CRM Built a chat-first CRM enabling marketers to create campaigns using natural language prompts and AI-assisted audience segmentation. Architected a distributed callback-based delivery system supporting asynchronous workflows and implemented campaign analytics, A/B testing, and AI-generated intelligence reports using Claude API, Prisma, and PostgreSQL.

ERP System for Global Water Solutions Developed a full-stack ERP platform with secure authentication, database integration, and role-based access control. Implemented 15+ interconnected modules and automated organizational workflows, improving data accessibility, security, and operational efficiency across departments.

ACHIEVEMENTS AND INVOLVEMENTS

VIT Chennai Full Stack Web Development Hackathon — 1st Runner-Up

- Led a 4-member team to secure 1st Runner-Up among 90+ participating teams.
- Developed a scalable event management platform with secure authentication, payment integration, and database-backed workflows.

LEADERSHIP AND ACTIVITIES

Technical Team Lead — CHiPSET SRM IST RMP Sep 2024 – Present

- Managed and maintained the club's official website while leading technical operations for events and registrations.
- Solved 200+ Data Structures and Algorithms problems across LeetCode and CodeChef.
